

Notable apple trees

An identifying name (e.g. My old tree)	Your name	Contact email
Tree location		
Nearest town	County and Province	GPS or lat/long
Tree description		
What makes the tree(s) worth recording? Why notable?		
Current condition (e.g. Almost dead, bearing fruit every year, etc.)		
Cultivar information (Is there any information about what variety it may be? Do you have some guesses, based on the appearance of the fruit?)		
Fruit descriptions (you can also email us pictures if you have them)		
Is there anything else you want to tell us about the tree(s)?		
Ownership and access		
Are you the owner of the property? If not, do you know who is?		
If you are the owner, and you think it is a planted tree (rather than a chance seedling), are you interested in having one or more trees tested to determine or confirm the cultivar identity? (A small fee applies)		
Please send this form, along with any additional questions, comments, and/or images, to Paul Kron at pkron@uoguelph.ca
